

KEY BENEFITS		FEATURES
1	USER-ORIENTED DESIGN	Both the printer and the software have been designed with user needs in mind. Pebble is therefore easy to install, monitor and operate
		> The Windows driver and the setup process have been totally reshaped to improve the user interface.
		> Pebble has a clamshell opening to speed and ease any printing task such as ribbon installation, cleaning, and card thickness adjustment. User operate the service by themselves on a daily basis, which minimize downtime.
		> The detachable airtight card feeder makes it possible to stock several feeders with different card background themes and/or thicknesses, or to enforce printing continuity by simply replacing an empty feeder by a full one.
2	VERSATILE AND SCALABLE	As card printing needs get versatile over time, several options are available to enhance connectivity or get multiple encoding options. Pebble is ready to be customized ! Advanced and unique accessories are also available for additional value to Pebble.
		> Pebble features a standard USB port and is conveniently shipped with an interface cable. An IP-based Ethernet port is also available as an option to bridge Pebble to a LAN, just like any conventional paper printer.
		> A manual feeder is on hand as an option to turn the printer into an elegant over-the-counter display that prints badges, card by card. Ideal for applications such as Ticketing, Membership cards & Access Control.
		>Advanced encoding technologies are available upon request: Magnetic Stripe encoder, Smart contact station with or without encoding unit and Contactless encoding unit. All these features can be seamlessly combined, while the Mag encoding option is so flexible it can even be deployed on-site.
3	POWERFUL	Pebble is one of the fastest printer in the market, and this next generation printer matches top-of-the-range performances with higher image resolution.
		> The Pebble ⁴ generation comes with a new CPU and printhead for outstanding graphics and image definition, with an incremental factor of 100 when compared with the earlier version.
		> With a print speed of 150 cards/hour in color and 1000 cards/hour in monochrome, Pebble shows premium performances in its category.
		> The printer is loaded with a 16MB memory for optimized operations.
4	PLUG & PRINT SOLUTION	Even the standard model is a turnkey printer that comes with full-fledged features for immediate operation. A smart way to save time !
		> A "Color Profile" feature provides the user with a color matching filter which prints colors similar to those displayed on the screen.
		> eMedia Card Designer software is delivered standard. From the very first time you use Pebble, you can personalize and print badges using an Excel database and the Data Import/Export feature. A truly professional solution is delivered with the printer !
		> Pebble supports Windows Vista, XP and 2003, while drivers for Mac OS X and Linux are available for download from the Evolis website.
5	QUALITY AND RELIABILITY	Pebble is engineered to last thanks to strict selection of components and advanced quality testing. Pebble reproduces vivid natural colors and images with an outstanding rendition. A no-hassle solution that is also very reliable !
		> Driver installation is easy and requires no training. The set up wizards leads the user through simple step-by-step instructions, while basic configuration is easily performed.
		> Pebble ⁴ offers a high quality finish, as shown by the well-cut and robust injected plastic body and the quality-driven assembly of the different printer modules. In addition, each Evolis printer is fully tested prior to shipping and fine-tuned to maximize printing performances
		> Both the printer and the print head come with a full three-year warranty, a proof of Evolis' commitment to making quality a top priority.
6	COST EFFECTIVE	With stunning performances and features, comprehensive accessories and consumables, and a pioneering warranty, Pebble sets a new performance to price ratio in the industry, for card personalization in small series or in bulk.
		> One ready-to-use package at your doorstep: printer, cleaning kit, cable and card design software. All included standard !
		> A comprehensive ribbon offering, including a half-panel color ribbon that slashes cost by 40% compared to the standard ribbon. Monochrome printing benefits from a ribbon saver system that increases ribbon capacity by 2 to 3.
		> The best 'cost per card' ratio in the market.
		> A 3-year warranty, the best one in the market ! With no hidden cost, Evolis products will keep its users satisfied for years.
